

Illinois Mathematics and Science Academy

United States of America

Certificate of School Participation in the 11th International Student Science Fair

John Monash Science School is pleased to recognise Illinois Mathematics and Science Academy's participation in the 11th International Student Science Fair between 7-11 December 2015.

Your staff and students' intellectual and cultural contribution to the ISSF enabled us to promote leading edge science education nationally and internationally.

We hope your delegates' interactions with top-tier scientists and educators in world-class facilities at Monash University, CSIRO, The Australian Synchrotron, the Victorian Specialist Science and Mathematics Centres, and Healesville Sanctuary inspires them to develop new *Frontiers in Science*.

Robyn Whittle
Chair
ISSF 2015 Steering Committee

Peter Corkill
Principal
